

Turn Sequence

1/7

Phase	Action
Event	Both players <u>must</u> draw one card from <u>each</u> event deck and may hold a maximum of 6 cards in their hand. After use, cards are discarded face down and are not recycled back into the game. Recover AD: add or subtract dice based on which Characters/Minons are currently in the Game.
Fellowship (FSP)	The Free Peoples Player (FP) may both: • “Declare” the position of the FSP on the game board: ○ move the figure regions $\leq$ current progress counter, ○ reset progress counter to 0 (remain hidden), ○ If in a FP city/stronghold, the nation is activated, ○ The FSP heals -1 corruption/turn (beginning the first turn of arrival) in FP city/stronghold not under enemy control, ○ If forced to draw a Hunt Tile, ignore reveal icon if the FSP is declared in a FP City or SH controlled by the FP • and/or Change the FSP guide (must be one of the companions with the highest level). The guide must change immediately when the composition of the FSP changes, e.g. as a result of a successful “Hunt”. Entering Mordor: When the FSP reaches Morannon or Minas Morgul, they can decide during this phase to enter Mordor and need not be hidden to do so. Then: • place FSP on the first step of the Mordor Track, • return drawn “eye” tiles to the Hunt Pool • Add Special Hunt Tiles called for by previously played Event Cards to the Hunt Pool
Hunt Allocation	SP allocates AD to the Hunt Box: max = the # of Companions in the FSP. Must allocated at least one die if the FP retrieved at least 1 die from the hunt box. May always allocate one.
FP Action Roll	FP rolls AD. Minimum 4 with one extra each if <i>Aragorn: Heir to Isildur</i> or <i>Gandalf the White</i> have entered and remain in play.*
SP Action Roll	SP rolls AD. Minimum 7 with one extra for each Minion (<i>Witch King</i> , <i>Mouth of Sauron</i> and <i>Saruman</i>) that has entered and remains in play.* “Eye” results are placed in the Hunt Box.
Action Resolution	• The players alternate spending AD to take actions (FP goes first). • A player may pass if he has fewer unused AD than the opposing player. • If FSP Progress Counter moves (or the FSP game piece <u>attempts</u> to move while in Mordor), the SP player may “Hunt”. • AD used by the FP to move or attempt to move the FSP are added to the Hunt Box and count +1 to <u>future</u> Hunt rolls.
Victory Check	Check if victory conditions have been fulfilled

* an AD is added or removed from play at the beginning of the turn following the addition or elimination.

Victory Conditions

#	Condition	When Measured
1	Corruption Counter reaches 12 on the FSP Track	After the current AD is resolved
2	The FSP enters the last space on the Mordor Track	Immediately
3	The SP control FP Settlements worth 10 Victory Points (VP)	end of any Game Turn
4	The FP control SP <i>Settlements</i> worth 4 VP	end of any Game Turn

- Lower-number victory conditions take precedence.
- Settlement Control Markers are place or removed when an *Army Unit* (not a Leader, Character or Nazgul) enters an enemy-controlled Region or Stronghold.

Action Dice

2/7

Die	Options (choose one)	Die	Options (choose one)
	<u>“Character”</u> - Move into or Attack an adjacent Region with <u>one</u> Army Group containing a Leader or “Minion” - Play a CHARACTER Event Card from your hand* - Move all Nazgul and Minions		<u>“Character”</u> - Move into or Attack an adjacent Region with <u>one</u> Army Group containing a Leader or “Companion” - Play a CHARACTER Event Card from your hand* - Move all Companions not in the FSP - Move the FSP** (only if “hidden”). - Hide the FSP** - Separate Companions from the FSP
	<u>“Army”</u> - Move up to <u>two</u> different Army Groups into adjacent Region(s); no Army Unit may move twice - Attack an Adjacent Region with <u>one</u> Army Group - Play an ARMY Event Card from your hand*		<u>“Army”</u> - Move up to <u>two</u> different Army Groups into adjacent Region(s); no Army Unit may move twice - Attack an Adjacent Region with <u>one</u> Army Group - Play an ARMY Event Card from your hand*
	<u>“Muster”</u> - Move one Nation’s counter one box closer to the “At War” box on the Political Track - Play a MUSTER Event Card from your hand* - If At War Recruit Reinforcements - Recruit a Minion (prerequisites apply)		<u>“Muster”</u> - Move one Nation’s counter one box closer to the “At War” box on the Political Track - Play a MUSTER Event Card from your hand* - If At War Recruit Reinforcements - Recruit a Character (prerequisites apply)
	<u>“Event”</u> - Draw an Event Card from either deck - Play ANY Event Card from your hand*		<u>“Event”</u> - Draw an Event Card from either deck - Play ANY Event Card from your hand*
	<u>“Eye”</u> Add all dice showing the “eye” to the Hunt Box		<u>“Will of the West”</u> - Use as any other Action Die result - Recruit Gandalf the White or Promote Aragorn to Heir to Isildur

*Some Event Cards are “played face-up on the table” and *then do not count against the 6-card hand limit*. The effects of these cards last until a particular condition or requirement is subsequently met. Discard after use. Cards that add Tiles to the Hunt Pool add them upon entry to Mordor, not before.

** The FSP is moved by advancing the FSP Progress Counter on the FSP Track, or if in Mordor, by declaring an attempt to move the FSP game piece on the Mordor Track. To hide the FSP, flip the FSP Progress counter from the “revealed” to the “hidden” side.

Elven Rings

Who	When?	Effect	Condition
FP*	Once per Game Turn <i>immediately before taking an Action</i>	Change one of his AD results, then pass the ring to the SP	Not <u>to</u> “Will of the West”
SP	Once per Game Turn <i>immediately before taking an Action</i>	Change one of his AD results, then remove the ring from the game	<i>Never from an “Eye”</i> Not <u>to</u> an Eye <i>immediately after a successful Hunt</i>

* The FP has all three rings at the beginning of the Game; each ring may be used a maximum of once by each player.

Game Pieces

3/7

Item	Stacking	Move	Combat Effect
Elite / Regular Army Unit (1)	10 in Region 5 in Stronghold	1 (2)	- Adds 1 die to Combat Strength of an Army to maximum of 5 - When hit, becomes Regular / when hit, is eliminated
FP Leaders	Unlimited	1 (2) must be accompanied by Army Unit(s)	- May re-roll 1 miss for each - Eliminated when not w/Army
FP Companions not with the FSP	Unlimited (3)	= to greatest level in the group if not moving with an Army (3)	May re-roll 1 miss for each & 2 for Aragorn (4)
Mouth of Sauron	Unlimited (3)	3 if moving alone (3)	May re-roll 2 misses (4)
Nazgul & Witch King	Unlimited (3)	Unlimited if moving alone (3)	May re-roll 1 miss for each Nazgul & 2 for Witch King (4)
Saruman	Unlimited (3)	May not leave Orthanc <i>but may lead attacks into adjacent Regions</i> (3)	May re-roll 1 miss (4)
The FSP	Unlimited	Whenever the FSP moves, the SP may Hunt (note 5)	May <i>only</i> be eliminated by "The Hunt"

- (1) Saruman Nation Elite Army Units function as leaders for all purposes as long as Saruman is in play.
- (2) May not enter a Region occupied by enemy Army Units unless those Units have retreated into a Stronghold. Leaders and Units of Nations that are not "At War" may not move across the border of any other Nation (except to retreat); however, they may move into neutral territory. May not enter or leave a Stronghold under siege.
- (3) Stacking/Movement rules for Characters:
 - o All: If not moving with an Army, may move through or occupy the same Region as enemy game pieces.
 - o Companions must stop upon entering a Region containing an enemy controlled Stronghold, *but may then continue on their way by using a subsequent AD result*. Minions may not enter a FP-controlled Stronghold Region unless it is Besieged by SP Units.
 - o Companions and the Mouth of Saron may not enter or leave a Stronghold under siege.
 - o *Once a Character joins with an Army, he functions as a Leader and can only separate from that Army using a character die, card, or non-Retreating movement of the Army away from the Character.*
 - o *NOTE: None of these rules apply to the Fellowship.*
- (4) Leaders, SP Minions and FP Companions Separated from the FSP are eliminated when involved in a Battle in which all the friendly Armies are destroyed. They are not separately targeted during Battle. *If Saruman is alone in Orthanc and a Free Peoples army moves into Orthanc, Saruman is not eliminated, NO units can then be recruited in Orthanc. Saruman is removed only by Ent Event Card. The SP player still gets the extra AD until Saruman is eliminated.*
- (5) The Sam/Frodo game piece indicates on the game board the last known position of the FSP (starts in Rivendell). The FSP is moved on the board up to the number of Regions indicated by the FSP Progress Counter from its last known position when:
 - o the SP player draws a Hunt Tile with a "revealed" symbol on it, in which case the FSP progress counter is flipped to the "revealed" side and is placed in a Region not containing a FP Settlement
 - o the FSP "Declares" in any location of his choice within range (*in this case, it stays hidden*).

Recruiting

- Only if a nation is "At War" may it use a Muster AD result to recruit:
 - o Any combination of two (2): Regular Army Unit(s), Leader(s) or Nazgul OR
 - o one (1) of: either an Elite Army Unit or an Isengard Elite Unit
 in a Settlement of the Nation to which the unit belongs (Nazgul in the Sauron Nation).
- *May not recruit 2 game figures in the same Settlement using AD – i.e. maximum of 1 figure per Region.*
- May never recruit any Units in a Settlement captured by the enemy (even with an event card).
- May not recruit in a Besieged Stronghold (*also: may not use the "voice of Saruman" to promote regulars to elites when Orthanc is under siege*).
- Exception: Event Card-based recruiting may occur in a Besieged Stronghold, or if not "At War".

Settlements

4/7

Type	VP	Recruit Here?	Companion's or FSP's Arrival Activates Nation?	FSP Recovers Corruption Here?	Battle Effect
Stronghold	2	Y	Y (1)	Y (2)	○ No Effect
Besieged Stronghold	2	(3)	Y (1) Companions can't Separate unless the FSP was there before the siege started and the FSP counter is at "0"	Y (2)	○ Need 6 to hit a Defender if he has "retreated into Siege" ○ Units inside may not assist a relieving attack from a friendly Army Group ○ Battle lasts only 1 round (4)
City	1	Y	Y (1)	Y (2)	○ Need 6 to hit Defender on first round of Battle
Town	0	Y	N	N	○ None
Fortification	0	N	N	N	○ Need 6 to hit Defender on first round of Battle

(1) Only if that particular Character is eligible to do so. Fellowship is always eligible.

(2) Corruption is reduced by 1 for each turn of rest in a friendly City or Stronghold, beginning the first turn of arrival.

(3) May not Recruit with an AD, but may recruit with an Event Card.

(4) Battle may be extended by an Attacker after the first and in each subsequent round if the Attacker reduces 1 Elite Army Unit to a Regular.

Politics

Action	How/When
Move 1 <i>box</i> toward "At War"*	• Use "Muster" AD result • Use <u>any</u> AD to advance the home Nation when Boromir, Legolas or Gimli are in a City or Stronghold of their home Nation (Gondor, Elven, Dwarven) • each time an Action Die is used to initiate a battle against a Nation's Army (per Battle, not per round) • <i>When an Event card that could inflict casualties is played on a Nation</i> • each time a Nation's City, Town or Stronghold is captured
Flip to "Activated"	• when a Region of the Nation is entered by an enemy Army Unit. • when a battle is initiated against a Nation's Armies using an Action Die • <i>when an Event Card that could inflict casualties is played on a Nation</i> • when the Fellowship is "Declared" in one of its Cities or Strongholds • when a Companion who can activate that Nation <i>ends its move</i> in one of its Cities or Strongholds

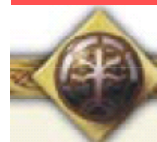

*Nations must be Activated in order to move into the "At War" box on the Political Track.

Progress Counters

Item	Description
FSP Progress Counter (not used when the FSP is in Mordor)	• indicates the # of Regions the FSP has moved since the last know position • indicates whether the FSP is "hidden" (one side) or "revealed" (the other).
Corruption Counter	• indicates the amount of Corruption the FSP has sustained
Political Track Counters	• indicates how close each nation is to being At War • indicates whether each FP Nation is "activated" (one side) or "passive" (the other). All FP Nations start Passive except the Elves

The Hunt

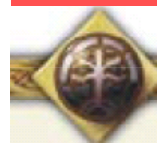

5/7

#	Who	Event/Action	When?
1	SP	Put a number of AD in the Hunt Box <= the # of Companions in the FSP	In the Hunt Allocation Phase. Must allocate at least 1 if the FP retrieved at least 1 die from the hunt box.
2	SP	Add any “Eye” AD results that are rolled to the Hunt box	Action Roll Phase
3*	SP	- Roll a # of dice = to the number of SP AD in the Hunt Box (max 5) - Add +1 for each FP AD in the Hunt Box (after the first FSP move of each turn)	Every time FP moves the FSP Progress Counter on the FSP Track
4*	SP	Re-roll 1 die for each condition, to a maximum of 3 re-rolls. <i>Each missed hunt die may only be re-rolled once.</i>	if the last known location of the FSP contained: • a Stronghold <i>controlled</i> by the SP, • one or more Shadow Army Units or • one or more Nazgul / Witch King, <i>even if there are FP Armies in the same Region.</i>
5*	FP	Put the FP AD in the Hunt Box	After the FSP uses an AD to move
6	SP	Randomly draw a Hunt Tile from the “Hunt Pool” and set the tile aside (do not return it to the pool). Apply the result per the table below.	• If a modified “6” is rolled on any one of the dice that were rolled in steps 3 and 4 • If the “revealed” FSP moves through, from or into a Shadow Stronghold (1 per Stronghold, in addition to the result of a successful Hunt roll) • Before moving, each time the FSP <u>attempts</u> to move while in Mordor

*** Steps 3, 4 and 5 are not done when the FSP is in Mordor; do only the Items in Bold Green.**

Hunt Tiles and Corruption

Tile Contains	Result
A number	Inflict Hunt Damage on the FSP equal to the number. If negative, then reduce the amount of Corruption accordingly.**
An “eye” symbol*	Inflict Hunt Damage equal to the number of “6”s rolled in steps 3 and 4 above.**
An “eye” symbol* while in Mordor	Inflict Hunt Damage equal to the number AD in the Hunt Box, including FP AD previously used for moving the FSP in the same turn.**
A “reveal” symbol	Flip the FSP Progress counter to its “revealed” side and place the FSP on the board in a Region not containing a FP Settlement controlled by the FP.
A “stop” symbol	The FSP does not advance to the next space. The attempt to move in Mordor failed.

* If an “eye” is drawn in response to an Event Card or because the FSP is moving through a SP Stronghold then the “eye” result is considered to have a value of 0.

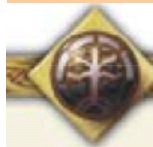

** **Hunt Damage Steps** (execute in order):

- (1) FP Player may use one relevant “play on the table” event card to cancel or reduce the damage;
- (2) FP Player may use the Guide's Special Ability;
- (3) Eliminate one Companion (either the guide, or one randomly selected Companion: include the guide in the random draw) absorbing Hunt Damage equal to the Companion's Level;
- (4) Take remaining Hunt Damage on the Corruption Track; Corruption “hits” less than the Companion's Level still eliminate him and have no other effect. If at any time during Hunt resolution a new Guide is appointed (e.g. when the guide is eliminated or when Meriadoc or Peregrin's ability is used), the Guide ability of the new Guide may be used immediately, if applicable.

If the FSP fails to attempt to move or hide during an entire game turn while in Mordor, increase corruption by 1.

Battles

6/7

General	- Only Army Units of nations “At War” may start a Battle. - When attacked in a battle, the Defending Nation’s counter on the political track is flipped to “active” (if not already) and advanced 1 box (per battle, not per round). - Units inside a single Region form an Army that may attack adjacent Regions not separated by impassible terrain. Armies may consist of Units/Leaders from multiple friendly Nations. - The Attacker may use a portion of the Units of an Army in a Battle; The Defender must defend with all Units. <i>Attacking Units not participating cannot suffer casualties and must contain at least 1 Regular or Elite Army Unit. They may not join the Battle in subsequent rounds. If using a Character die to attack, the Attacking force must contain a Character or Leader.</i>
Siege Battles	- An attacker must be in the same Region as the attacked Stronghold in order to Battle with Units that have “Retreated into Siege”. - Units that have Retreated into Siege may choose to start a Battle with Units that are in the same Region (Sortie), but if they do, the siege-bound Units are hit on a 5 or 6 rather than a 6 (they are fighting a “Field Battle”). <i>Characters in a Besieged Stronghold need to remain with an Army Unit - leaving them behind alone during a Sortie is not allowed.</i>
Casualties & Reinforcements	- SP Army Units and Nazgul casualties <u>can</u> return as reinforcements. - All FP game pieces are removed from the game when taken as casualties and <u>cannot</u> return as reinforcements. However, FP Regular Army Units previously taken as casualties may be used when reducing an Elite to Regular unit. - Units removed from the board for exceeding stacking limits may return as reinforcements.

Conducting a Round of Battle

1	Units defending in a Region containing a Stronghold may choose to “Retreat into Siege”. The Battle ends and the Attacker may advance into the Region. If the Attacker does not advance, then the Defender does not retreat and does not lose units due to the reduced stacking limitations of a Stronghold.	7	- Remove 1 Regular Unit per hit or - an Elite Unit may be reduced to Regular in order to absorb 1 hit (Attacker Removes hits first) - If a single hit is inflicted and there are no Regulars in the battle and no figures available to substitute a Regular for an Elite then the Elite is removed with no substitution. - Discard Combat Card Used this round.
2	Each side may play 1 Event Card as a Combat Card (first Attacker, then Defender).	8	Attacker may choose to cease the attack.
3	Simultaneously reveal Combat Cards, <i>which apply for only one round of combat</i> . Card with lower initiative number is applied first, if tie then Defender’s first. For additional attacks granted by combat cards, the die roll Modifiers granted by opponent's cards are NA.	9	<i>If not under Siege</i> , the Defender may retreat into an adjacent Region free of enemy Army Units and enemy-controlled Settlements.
4	Each side rolls one die per Regular or Elite Army Unit to a max of 5 dice.	10	Attacker may advance into the Defender’s unoccupied Region with all or a portion of the remaining Units that participated in the Battle.
5	Each side re-rolls up to 1 “miss” per Leader or Nazgul and 1 “miss” per leadership rating of participating Characters (max of 5 dice). <i>Each miss may only be re-rolled once</i> . NA for additional attacks granted by Combat Cards.	11	Repeat until Attacker ceases (step 8 above), Defender retreats (step 9 above) or all Units of one side are eliminated. Advance a Nation’s counter one box toward War (per Battle, not per Round) and another box if capturing a Town, City or Stronghold.
6	- Hits normally occur on a 5 or 6. (Exception: Defenders in Strongholds (6), Cities or Fortifications (6 on first round)). - A 1 is always a miss, a 6 is always a hit.	12	If Attacking Units in a Stronghold, Attacker must reduce 1 Elite unit to Regular in order to <u>each</u> additional Round of Battle (after the first Round).

Companions and Minions

7/7

Character	Information
Strider 3/1	Use any AD to hide the FSP. Adds 1 to the combat strength of an Army.
Gandalf the Grey 3/1	If you use an Event AD to play any Event Card, you may draw another card matching the typed played. Adds 1 to the combat strength of an Army.
Boromir 2/1	Adds 1 to the combat strength of an Army. If in any Gondor City or Stronghold use any AD to advance the Gondor Nation 1 box on the Political Track.
Legolas 2/1	Same as Boromir, except can only Advance the Elven Nation Politically.
Gimli 2/1	Same as Boromir, except can only Advance the Dwarven Nation Politically.
Pipin 1/1 Merry 1/1	If Hunt damage is 1 or more, separate from the FSP to reduce hunt damage by 1. If eliminated while in the FSP, immediately put him in play again as if he just separated. <i>Neither Special ability may be used if the FSP is in Mordor.</i>
Gollum	Standard numbered Hunt tiles with a "Reveal" icon do not reveal the FSP. If the Hunt Tile does not reveal the FSP you may reveal it to reduce Hunt damage by 1. As soon as there are no Companions in the FSP Gollum is immediately added and becomes the Guide.
Gandalf the White 3/1	Add 1 AD. If Gandalf the Grey (or keeper of Narya) is dead or has left the FSP and any Sauron Minion (not Lesser Minion) is in play, use 1 Will of the West AD to replace him with GtW, or if dead place GtW in an Elven Stronghold (even if under siege) or in Fangorn. May move 4 if traveling alone or with one Hobbit. In Battle, may forfeit his leadership to cancel all leadership of the Nazgul in that Battle.
Aragorn 3/2	Add 1 AD. If Strider has left the FSP and is in friendly-controlled Minas Tirith, Dol Amroth or Pelagir use a Will of the West AD to replace with Aragorn. Adds 1 combat strength to an Army.
Mouth of Sauron 3/2	Add 1 AD. If the FSP is in Mordor OR if all FP nations are "at War". Place in any Region with a Sauron Stronghold by using 1 Muster AD. Can change one Muster AD to "Army" each turn.
Saruman 0/1	Add 1 AD. Isenguard is "at War". Place in Orthanc by using 1 Muster AD. Saruman cannot leave Orthanc. Use a Muster AD to either a) recruit 1 Regular Isengard unit in every Isengard Settlement or b) replace 2 Regular Isengard units in the Orthanc Region with 2 Elites. Each Isengard Elite is considered a Leader as well as an Army Unit.
The Witch King ∞/2	Add 1 AD. Sauron Nation AND any one FP Nation are "at War". Use 1 Muster AD to place in any region containing a Sauron Unit. Immediately Activate all FP Nations. If you use a combat card in the first round of the battle, you may immediately draw a matching Event card.

##: Level / Leadership; Red: Conditions for Entering Play; Green: Applies only if Guiding the FSP

Companions

Item	Rule
The Guide	- The Guide is Gandalf at start, and then the Companion with the highest Level (FP choice if equal). - A new guide is selected immediately when the FSP composition changes. - If, at any time during Hunt resolution a new Guide is appointed the ability of the new Guide may be used immediately. - No Companion abilities are available until they separate (exc: "If Guiding the Fellowship").
Separated Companions	- Companions separated with the same Character AD <i>move as a group</i> up to a number of Regions equal to the current number on the FSP Track plus the highest Companion Level of the group. <i>In subsequent turns, Separated Companions may move separately to different destinations or may continue to move in a group or groups a number of Regions equal to the highest level Companion in each group.</i> <i>If Companions Separate while the FSP counter is in a Besieged Stronghold, the Separated Companions can't leave until the Siege is broken.</i> - When separated, their special abilities are in play. They may never rejoin the FSP. - A Companion that separates from the FSP while in Mordor is eliminated.
