

Pantheon: Demigods of Olympia - Monsters Solo Variant

This variant uses the Monsters expansion.

Core System Rules

1 Max Blight Penalty Rule: If Kronos cannot execute an ability, or place an Element token(s) due to board layout restrictions, a max of 1 Blight is placed. Also, when 'God's gain an Element(s)', a max of 1 Blight is placed.

Pit Cap: You suffer a strict scoring penalty of (-7) Victory Points for each physical Pit of Tartarus left on the board at the end of the game; NOT including the starting pit. Any Blight token that you shift into a Pit of Tartarus is immediately returned directly to the supply pool.

Demigod Market

If there are 3 Demigods of the same color type, you may discard them and redraw; once per turn.

Kronos Card Override

Demigod Removal card: This ability triggers exactly once per game. If drawn when you have 0 Demigods, it stays active for a future pass. For all subsequent passes after a successful trigger, ignore text. If no Demigod is discarded, Kronos always places 1 Blight.
