

RULEBOOK

# PANTHEUM

DEMIGODS OF OLYMPIA

MONSTERS & MANDATES

EXPANSION

This expansion for *Pantheum: Demigods of Olympia* features three independent modules. Play them individually or mix and match them for a customizable Pantheum experience!

### **MONSTERS:**

Rally your battle-hardened Hoplites and prepare to face the Monsters invading the newly forged Landscapes. This expansion brings a deeper, more strategic challenge, perfect for players who've mastered their first game of Pantheum.

### **MANDATES:**

Hades has made his demand. Race to fulfill his Mandate to claim his reward, or fail and face his wrath. This expansion adds a unique objective to every game that has you keeping an eye on your opponents' plans.

### **INFLUENCE OF THE IMMORTALS:**

The gods are ready to directly intervene in mortal affairs. This mini-expansion grants each god a unique and thematic set of Powers, bring their character to life on the board.

**Game Designer:** Trevor Kerth

**Art:** Brian Flores, Tyler Baird

**Media:** Kat Kerth

This is not a standalone game.  
A copy of *Pantheum: Demigods of Olympia*  
is required to play this expansion.

## COMPONENTS

### MONSTERS

14 DEMIGOD CARDS

16 MONSTER CARDS

32 HOPLITES

12 PENALTY TOKENS

1 HOPLITE MARKET CARD

### MANDATES

12 MANDATE CARDS

4 GOD MARKERS

### INFLUENCE OF THE IMMORTALS

4 INFLUENCE CARDS

## MONSTERS

To include the Monsters Expansion, setup the standard game as usual, then follow these additional steps:

- 1 Before creating the Demigod Market, shuffle the new Demigod Cards (marked with this symbol: ) into the Demigod Deck. Then draw four Demigod Cards to create the Demigod Market.
- 2 Shuffle the Monster Cards and create the Monster Deck. Place it above the Epic Demigod Market.
- 3 Reveal the top Monster Card from the Monster Deck and place it face up on the Pit of Tartarus.
- 4 Make a pile of Hoplites next to the board in the Bank .
- 5 Place the Hoplite Market Card under the Epic Demigod Market. Place 2 Hoplites on the card.
- 6 Set the Penalty Tokens aside. They're used for end game scoring.

## OBJECTIVE

Players will gain Hopliters to battle Monsters within their god's Range. Each Monster has a Repel Cost and Defeat cost. Sending Hopliters to Repel a Monster will drive it away, but Hopliters that Defeat a Monster will grant the player its powerful Boon. Any Monster remaining on a City Tile at the end of the game reduces that City Tile's value by 1 Victory Point.

## HOPLITES

There are 3 ways to Gain Hopliters. Hopliters are kept in your Satchel . Hopliters are a finite resource.

### 1. RECRUITING DEMIGODS

Demigod Cards have sword icons showing how many Hopliters are recruited with them. When you recruit a Demigod, Gain those Hopliters from the Bank .

#### Sword Icons

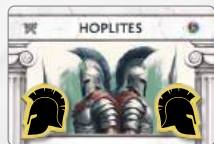

Demigods with the same name have different sword icon values.

If a Demigod is removed from your Action Board, the Hopliters associated with them are not lost.

### 2. RECRUITING HOPLITES

During your "Recruit a Demigod" step, you may recruit two Hopliters **instead** of recruiting a Demigod.

Pay any Element to the Bank  to take the two Hopliters from the Hoplite Market Card. Then add two Hopliters from the Bank  to the Hoplite Market Card to refresh it.

### 3. DEMIGOD ABILITIES

Some demigods have an Ability to Gain Hopliters from the Bank .

## BATTLES

The game begins with a Monster face up on the Pit of Tartarus. Any time a Landscape is added to a City Tile, a Monster card is immediately placed on top of that Landscape.

Once per turn at any point during your turn, you may battle a Monster within your god's Range by Paying Hoplitae from your Satchel to the Bank. Pay either the Monster's Repel Cost or their Defeat Cost.

A god can occupy the same City Tile as a Monster.

### Repel

If you pay the Repel Cost, remove the Monster from the City Tile and place it **face down** in your Satchel. Their Boon cannot be used.

### Defeat

If you pay the Defeat Cost, remove the Monster from the City Tile and place it **face up** in your Satchel. Their Boon is available to be used.

### Battle Example

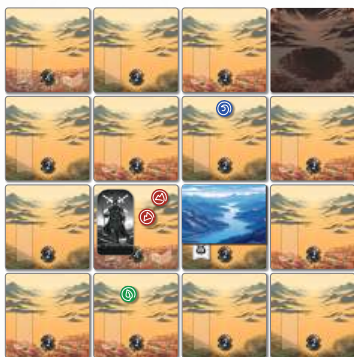

On his turn, Ares chooses to battle the Griffin within his Range. He pays 7 Hoplitae from his Satchel to Defeat it. He adds the Griffin to his Satchel face up.

## BOONS

Boons are powerful **one-time use** abilities that may be performed at any time during your turn by flipping a face up Monster in your Satchel 🐉 face down. Boons may be used immediately or held to be used on a different turn. Multiple Boons may be used on the same turn. All Boons use the same Range requirements as if your god were performing them.

### Boon Example

On his turn, Ares flips the Griffin over in his Satchel 🐉 to Place 4 Elements from the Bank 🏦 on City Tiles within Ares' Range.

## END GAME

When the final Favor Token is placed, a Monster card is still immediately placed on top of that Landscape. That player may finish their turn including battling Monsters and using Boons.

### Scoring

Follow the standard scoring rules with one change:

Each Monster left on a City Tile at the end of the game reduces that City Tile's value by 1 Victory Point. This penalty applies to both matching your Divine Plan and placed Favor Tokens. Mark this by placing a Penalty Token over the Victory Point icon on the City Tile.

### Penalty Tokens

At the end of the game, Medusa is still on this 3 City Tile. The 2 Penalty Token is added so it becomes a 2 City Tile.

## APPENDIX

### ➡ MONSTERS

Any portion of a Boon that cannot be performed is ignored.

**Echidna, Stympthalian Birds, Cerberus:** Gain Elements from the Bank into your Satchel.

**Nemean Lion, Talos, Colchian Dragon, Scylla & Charybdis, Harpies, Griffin:** Place, Shift and Remove must be within your god's Range.

**Medusa, Typhon:** Recruit for free immediately. You may also perform your "Recruit a Demigod" step this turn.

**Chimera, Hydra:** Pay no Elements to immediately Lock a City Tile. It must match the Element(s) on that City Tile. A Monster populates this new Landscape.

**Sirens:** Other players discard a Demigod or Epic Demigod from their Action Board. Any discarded card is out of the game.

**Phoenix:** If you placed the final Favor Token this turn, you may use still this to get another turn.

**Minotaur:** From a ② City Tile, remove the Landscape and any Monster on it. Then, add a different Landscape type with a new Monster.

### ➡ DEMIGODS

**Hippolyta:** Gain 2 Hoplite Tokens from the Bank. Other players may Gain 1 Hoplite Token from the Bank.

**Bellerophon:** Pay 1 Hoplite Token to the Bank. Within your Range, Place any Element from the Bank on a City Tile.

**Pollux:** Gain 1 Hoplite Token from the Bank.

**Heracles:** When paying a Monster's Defeat Cost, Pay 2 fewer Hoplite Tokens. This does not apply to the Monster's Repel Cost.

**Asclepius:** Pay 1 Hoplite Token to the Bank. Gain 1 Element from the Bank.

**Ajax:** During end game scoring, add an additional Victory Point for every Monster in your Satchel. Face up and face down Monsters are counted.

**Memnon:** Gain 2 Hoplite Tokens from the Bank.

# MANDATES

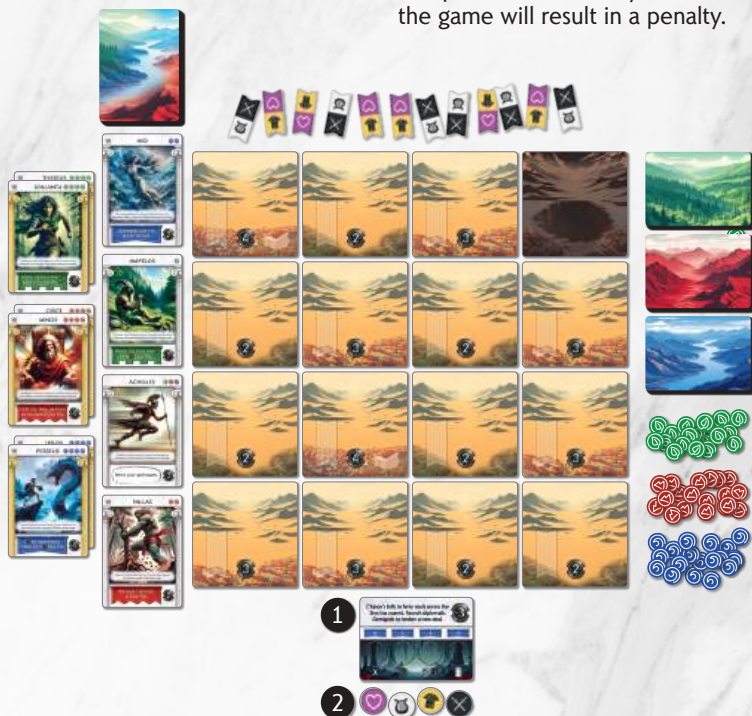

To include the Mandates Expansion, setup the standard game as usual, then follow these additional steps:

**1** Randomly select one of the Mandate Cards and place it face up below the board. Return the unused Mandate Cards to the box.

**2** Each player places their corresponding God Marker below the Mandate Card. Return the unused God Markers to the box.

## OBJECTIVE

Players will travel to the Pit of Tartarus to fulfill Hades' Mandate and earn his reward. Failing to complete a Mandate by the end of the game will result in a penalty.

# MANDATES

**Instead of performing an Action Column on your turn, you may fulfill the Mandate by covering a Slot with your God Marker. Your god must be occupying the Pit of Tartarus to fulfill a Mandate.**

## Scenario

The Scenario provides context, but does not affect gameplay.

## Penalty

If you have not fulfilled the Mandate by the end of the game, you lose this many Victory Points.

## Requirements

Some Mandates show a number on a green flag, red flag, blue flag, or stone plaque. This indicates the number of Demigods of that color you must have on your Action Board. Colorless Demigods do not count toward the green, red, or blue Demigod requirements. The other Requirements are explained in the Requirement Examples.

## Requirement Examples

You must have at least two green Demigods on your Action Board.

You must Pay 3 Green Elements and 1 other Element to the Bank.

You must have at least 2 Favor Tokens on City Tiles.

You must discard a Demigod with at least a Power of 3 from your Action Board.

You must discard an Epic Demigod from your Action Board.

Any card that is discarded is out of the game.

## Slots

Use your God Marker to cover an empty Slot where you meet the Requirement. Once you place your God Marker in a Slot, it remains there for the rest of the game and that Slot is unavailable to other gods. Covering any of the Slots will fulfill the Mandate for you.

## Rewards

Any Reward with the , , or  symbol is gained immediately when you fulfill the Mandate. You may still take the "Recruit a Demigod" step this turn. The other Rewards are explained in the Reward Examples.

## Reward Examples

 No Reward.

 Gain any Element from the Bank .

 Gain 1 Victory Point at the end of the game.

 Recruit a non-Epic Demigod for free immediately.

 Recruit an Epic Demigod for free immediately.

## Mandate Example

On her turn, Aphrodite occupies the Pit of Tartarus. Instead of performing an Action Column, she fulfills the Mandate by moving her God Marker to an open Slot where she meets the Requirement.

During end game scoring, she will add 2 Victory Points from the Reward and avoid the Penalty of -3 Victory Points.

## INFLUENCE OF THE IMMORTALS

To include the Influence of the Immortals Expansion, setup the standard game as usual, then give each player their god's Influence Card with the Powers side face up.

### POWERS SIDE OF THE INFLUENCE CARDS

### POWERS

Once per game, at any point during your turn, you may use **either** the top or bottom Power on your Influence Card.

**Top Power:** Gives an immediate effect, then the card is discarded.

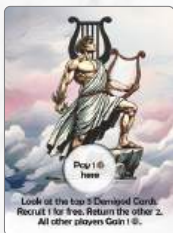

**Bottom Power:** The card is flipped over for an alternative effect that remains in play.

Each power is described on its cards with further clarification in the next section.

When the Favor Token is removed from Ares, the other player is no longer Subjugated.

If the game ends with the Favor Token still on here, Ares gets an extra full turn.

The 2 unselected Demigod Cards go back on top of the Deck in any order Apollo chooses.

This side does not need to be used immediately after using his Power.

Abilities that effect Demigods do not apply to Aphrodite.

Demeter may Gain an Element from this card in the same turn she flipped it over.
